

IFM Local Food Business Profile - RP's Pasta

Business Overview

RP's Pasta is made with the finest all-natural ingredients, in appreciation for Old World culinary traditions, and most importantly, a love for food. Today RP's Pasta is distributed to dozens of restaurants and grocery stores in the upper Midwest.

While touring Europe as a stage carpenter for dance companies, RP's Pasta founder and owner Peter Robertson fell in love with the food of Italy. He studied traditional fresh pasta and ultimately made authentic fresh pasta on his own, then moved to Madison to open RP's Pasta Company.
